REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: Geving et al (US 6,814,926 B2) teaches a powder blend used in laser sintering. The powder blend comprises a metal powder and a binding agent (column 6, lines 45-58). The powder blend is sintered by selective laser sintering that fabricates a green article (column 8, lines 1-3). Upon completion, unfused or unsintered powder is removed in a conventional manner (lines 51-56). During infiltration, the base metal, in this case iron, is dissolved in an infiltration material that was placed next to the green part (column 9, lines 1-31). However, Geving et al does not disclose or suggest providing an alloying metal with the powder into which the base metal will later dissolve. The alloying metal in Geving et al reads on the infiltrant, which is added after the green part is formed. Additionally, Geving et al does not teach titanium or titanium alloys.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The restriction requirement for Claims 26-29, as set forth in the Office action mailed on 7/9/2008, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory

Art Unit: 1793

and/or nonstatutory double patenting rejections over the claims of the instant application. Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable.
